

EDUCATIONAL PROGRAM POLICY

Research accentuates that quality programs significantly influences children’s growth and development. We have the opportunity to construct a supportive learning environment and program, with inspirations from the children and families. This contribution can encourage children to feel a sense of control over their actions, interactions, to explore, be curious and test out their understanding of themselves others and the world around them.

In school age education and care services, the educational program supports learning through play and leisure. Based on the nationally approved learning framework, My Time, Our Place: Framework for School Age Care (MTOPE), the educational program ‘includes all the spontaneous and planned experiences for children at the Service designed to support wellbeing and facilitate learning. It includes all the interactions, experiences, routines and events’ (MTOPE, p.42).

PURPOSE

To enhance children’s learning and development through the pedagogical practices of educators and families in a positive learning environment which is promoted across the five learning outcomes from *My Time, Our Place: Framework for school age care in Australia*. The program will nurture the development of life skills and complement children’s experiences, opportunities and relationships at school, at home and in the community.

SCOPE

This policy applies to children, families, staff Approved Provider, Nominated Supervisor, students, volunteers, visitors and management of the Service.

IMPLEMENTATION

The National Quality Framework focuses on outcomes for all children. It requires Out of School Hours Care services to deliver a tailored program catering to the children’s age, skill, interests and abilities through a variety of challenging and recreational activities. Developing an educational program involves observing, gathering and interpreting information about children to inform the preparation of

environments and experiences that engage them and are meaningful for them. It also involves reflecting on and documenting children's experiences and learning.

Under the Education and Care Services National Law and National Regulations, approved services are required to base their educational program on an approved learning framework. The program should focus on addressing the developmental needs, interests and experiences of each child, while taking into account the individual differences of each child.

The national approved learning framework which outlines practices that support and promote children's learning is *My Time, Our Place: Framework for School Age Care in Australia ('Framework for School Age Care')*. The aim of the Framework for School Age Care is to extend and enrich the wellbeing and development of school age children in education and care settings. It acknowledges time and place as children engage in a range of play and leisure experiences that allow them to feel happy, safe and relaxed; interact with friends and practice social skills; solve problems; try new activities; and learn life skills. This Framework for School Age Care is strongly linked to the Early Years Learning Framework and extends the principles, practices and outcomes to accommodate the contexts and age range of the children and young people who attend school age care settings. Further it supports Goal 2 of the Melbourne Declaration on Educational Goals for Young Australians that all young Australians become:

- successful learners
- confident and creative individuals and
- active and informed citizens.
- (Commonwealth of Australia, 2009, p.5).

There are also jurisdiction-specific approved learning frameworks, which include:

- Victoria: Victorian Early Years Learning and Development Framework

- Western Australia: Pre-primary to Year 10 Western Australian curriculum
