

EDUCATIONAL PROGRAM POLICY

Research accentuates that high quality programs significantly influences children and young people's growth and development. We have the opportunity to construct a supportive learning environment and program, with inspirations from the children, young people and families. This contribution can encourage children to feel a sense of control over their actions, interactions, to explore, be curious and test out their understanding of themselves others and the world around them.

PURPOSE

School age education and care programs are acknowledged in the National Quality Framework (NQF) as distinct from early childhood programs. Programs in school age education and care supplement children's formal schooling. The program supports each child and young person's continuity of learning by providing opportunities for active learning, social development and wellbeing and recreational or leisure activities. DOCUMENTATION REQUIREMENTS

From July 1 2023, services that educate and care for school age children in SA, TAS, VIC, NT, NSW and QLD are not required to keep documentation of individual evaluations of school age children. Services in the Australian Capital Territory (ACT) must continue to provide evaluations of each child's wellbeing, development and learning as proportionate to the amount of time the child attends the service and the complexity of their individual needs. (ACEQCA, 2023). Decisions will be made about how much to document is based on our unique context, the age of children attending, attendance patterns and how the documentation is used by educators and families.

Documentation will demonstrate children and young people:

- Showing themselves as active participants and decision makers
- Engaged in their skills, development and programs
- Providing feedback that has resulted in a decision to continue or extend on an aspect of the program
- Providing work samples such as drawings, reflections, or photographs of their thoughts and ideas about the program and their learnings.

Documentation will also demonstrate educator's reflections on their own practice and interpreting the feelings, thoughts and ideas of children families and colleagues.

Services must ensure that evidence about the development of the program is documented.

Documentation will provide evidence about the development and reflection of the program.

EXAMPLES OF DOCUMENTATION USED BY EDUCATORS MAY INCLUDE:

- Learning stories or narratives
- photographs with captions
- observations or reviews
- journals – sharing book
- mind maps and surveys
- program diary

PHYSICAL ACTIVITY

Our *Physical Activity Policy* provides further details to support school age children's physical activity and development of their gross and fine motor skills through a range of spontaneous and intentionally planned active play experiences that are both child initiated and educator led.

CONTINUOUS IMPROVEMENT/REFLECTION

The *Educational Program Policy* will be reviewed on a regular basis in conjunction with children, families, staff, educators and management.
